IBAU HAMBURG

A HAVER & BOECKER Company

NG Constructions
Augustówka 9C/1

PL-02-981 Warszawa

Hamburg, 24th of May 2018

To whom it may concern.

We hereby confirm that in 2017/2018, IBAU HAMBURG performed a project for ECOCEM France SAS in Dunkerque/France together with NG Constructions.

NG Constructions was responsible for the erection works of our equipment for following plant parts:

- Silo feeding and discharge equipment for GGBS-Silo N° 8
- Silo feeding and discharge equipment for CEM 1-Silo N° 6
- Mixing plant
- Bulk loading stations for trucks
- Truck unloading stations
- Bucket elevators and other associated equipment like fluidslide transports etc.

The total assembly weight of the equipment was approx. 210 t.

NG Constructions did the work professionally with a very competent site manager who was always available.

Our client ECOCEM France was also impressed by the good performance exhibited by NG Constructions.

All works were successfully completed without any delay and the final acceptance test was signed and issued by the client.

We are already assured that we will realize further projects with NG Constructions.

Yours faithfully,

IBAU HAMBURG
